DETAILED ACTION

Allowable Subject Matter

Claims 1-3, 6-20 and 23-34 are allowed.

The following is an examiner's statement of reasons for allowance: The prior of record does not disclose nor suggest an audio signal device producing one or more output audio streams in dependence upon the identity of the speaker using a microphone and the microphone having a switch for producing the one or more output audio streams, as required by independent claims 1 and 18. The combination of Addeo and Durlach discloses a device for producing an audio signal, at least one sensor for determining the speaker (using sound localization), an encoder and a decoder. However, the combination does not teach or propose producing output audio streams based upon the identity of the speaker and a microphone having a switch actuatable by the speaker.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
